

Light Vehicle Dimension

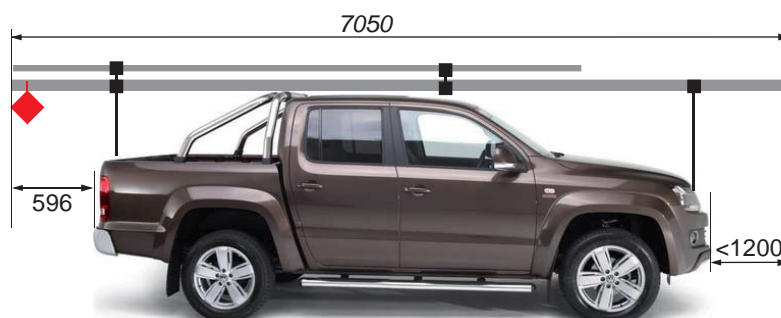

1. This Guideline:

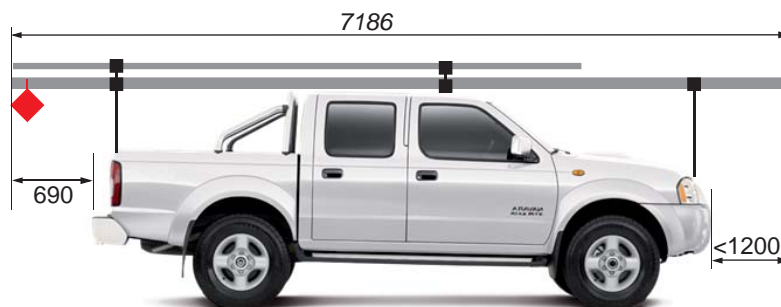

- Provides the guidance on some actual vehicle dimension limits for common vehicles which may be applicable in your state (60% of wheelbase rear overhang) . Use these as a guide only and use in conjunction with the Customer Pick Up Guideline (TSG18) and your States Light Vehicle Loading Guideline (TSG19-23).
- Regardless of legal dimensions, **do not load vehicles in excess of 50 kg on roof racks or 100 kg on trade racks without written verification of the rack and the vehicle.**
